Subject: Biggest MEPA Scandal

Hi Jason,

Hope all is well, I have a scoop that with it PN will surly lose the 8th March general election. As I told the leader before today here are some of the facts.

A MEPA permit was issued to built a disco at Mistra Bay
The Land in question is in the ODZ and Alex Bezzina (my architect) says that's its impossible to get a permit on this strap of land as it "Natura 2000" besides other protections
The applicant is Ian Sultana and the architect of this project is nobody but "Paul Camilleri" Lawrence Gonzi Prime cousin.
The area measures about 2000 sqr metres (he can fit about 4000 persons for sure)

These are the points I managed to get for now. My architect is working on it to have more detailed information and I will be forward everything to you to give to our leader. Besides my notary is checking for us to whom the land belong too.

Its highly important that this issue is given priority as if this club opens he will surly effect my business and it will mean that our deals will no longer be secured.

reg,

Kevin

Subject: Mistra Update

Hi Jason,

Its more complicated and scandalous. Here are the facts architect and notary told me.

Land in question belong to a PN MP - Jeffrey pullicino Orland (green politician for 2007)
The club is surly his as this lan sultana is not in the entertainment field. He is just his friend and applied in his name.

He also got all he required from MTA.

Full development includes another 3000 sqr metres of land. (8000 persons will fit for sure)

Besides the club this permit is connected to the Mistra Bay Beach development.

I believe that thousands of money were surly paid to get out this permit from MEPA

Jeffrey planned this to the finest detail. If this project happens It will effect my core entertainment business. Make sure my name is not mentioned nowhere.
I will call our leader later.

reg,

Kevin

Hi Jason,

Use this 3D impression Please. Make high effort as I cannot compete with this design. At least I gain time.

Stopping this project will surely mean that our co-operations will get closer and our arrangements will increase for sure.

Kevin,

Addejt kollox lil Alfred. Qed inwedek illi il-progett zgur mhux se jsir ghax korruzzjoni hija inevitabli. Ghandna informazzjoni li ghanke flus thallsu mid-deputat. Alfred se jmur bid-dettalji kollha ghand il-pulizija. Nhar il hadd fil meeting ha jithabbar l-ewwel dettalji.

dak ir-ritratt ha jkun ippublika fuq ktieb ta skandli

dejjem tieghek

Jason
