

COMPETITION ONLY GIRLS ALLOWED

A competition exclusively for girls 11-12 years old. Create and animate your own story about Fashion or Music. Or animate your own game about Nature. We will help you and your friends use very simple technology to:

Create and Animate Fashion.Music.Nature

www.mita.gov.mt/girlscompetition

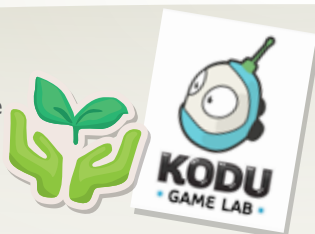

What are you into? Nature, Fashion or Music? If so, this competition is for you!

An exciting competition for all 11 & 12 year old girls!
It's so easy... All you need is a whole lot of imagination.
Just pick one of the topics and create your very own story,
or your own game. Enter it into the competition and you
can win really **fantastic** prizes.

Your own Nature game with 'Kodu'

Kodu is a character in a computer game. Kodu is programmable through a simple free step-by-step game creation tool. If you want to compete with Kodu you should programme your Kodu through a **nature** quest that is fun and challenging. Kodu's nature adventure should start from a point and finish at an end point collecting stuff and winning points throughout. Don't make it too easy!

OR

Write a story with 'Storytelling Alice'

Storytelling Alice is another easy-to-follow free software. But our Alice is a **fashion** and **music** fan... just like you. You can choose one of the three stories below, and tell us your own story:

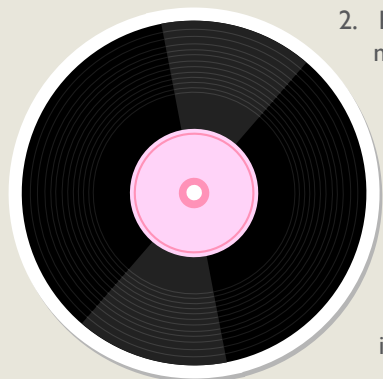

1. How does fashion/music use digital tools? Here's a hint: Have your parents got records at home? Strange aren't they? What's the latest and coolest way to listen to music now?

OR

2. How will technology affect tomorrow's fashion/music industry? Another hint: Dresses used to be made with paper patterns and scissors. Are they still made that way? What else is new?

OR

3. Has fashion/music changed over the years? How did technology help? Your last hint: Earlier, music consisted of instruments only. Nowadays, DJs are creating their own music without using any instruments... How?
